

### Trondheim Science Centre will share experience on the role of innovation and science centres in the learning process

Daugavpils University in cooperation with Daugavpils Innovation Centre and Daugavpils City Municipality continues to implement the “Informal Continuing Education Program in a Competence-Based Approach for STEM Specialists”. Within the framework of training, teachers have the opportunity to improve their knowledge, skills and competences in the fields of STEM (science, technology, engineering, mathematics), entrepreneurship education and teaching methodology, which has become the basis for sustainable development nowadays. The third group of specialists is already participating in training.

**On May 7, 2022 (Saturday) at 9.10 am, we invite everyone who is interested in the above fields to join the experience exchange session of the project's Norwegian partner, Trondheim Science Centre: "The impact of Norwegian innovation and science centres on learning methodologies and the impact of educational programs on students' competences".** There will be an opportunity to ask questions, participate in discussions and share experience.

You can join the experience exchange session on the ZOOM online platform here:
